WORK EXPERIENCE

VENTUREDIVE

Feb 2026 - Present

Lead Software Engineer

- Leading development of Virgin Mobile's cross-platform app, planning and shipping new features while maintaining and evolving existing functionality for a wireless brand used across seven global markets.
- Designing scalable **Kotlin Multiplatform (KMP)** architecture for new features, structuring shared business logic to maximize code reuse between iOS and Android alongside native SwiftUI interfaces.
- Introducing **agentic AI-assisted development** practices (Claude, Cursor, ChatGPT) into the team workflow, using context-window optimization and reusable AI agent skills/rules to speed up delivery without compromising code quality.
- Setting up **CI/CD pipelines and GitHub Actions workflows** to streamline build, test, and release processes.
- Collaborating cross-functionally with product, design, and Android engineering to define shared module contracts and a consistent cross-platform experience.

ARBISOFT

May 2020 - Nov 2025

Mobile Architect

- Architected and led development of enterprise-scale iOS apps serving **1M+ users** in FinTech, HealthTech, and EdTech.
- Reduced release cycle by **40%** through GitHub Actions CI/CD pipelines and automated testing.
- Mentored a team of **5+ iOS engineers**, raising code quality and cutting post-release bugs by 30%.
- Optimized app performance, achieving **99.9% crash-free sessions** and reducing cold start time by 25%.
- Collaborated with product managers and designers to deliver features that improved App Store ratings from 3.8★ to 4.6★.

SOFTWARE ALLIANCE

Feb 2019 - May 2020

Sr. iOS Engineer

- Delivered multiple iOS apps from concept to App Store launch with 100K+ combined downloads.
- Implemented secure backend integrations and improved UI performance, reducing screen load times by 20%.
- Streamlined code signing, archiving, and deployment processes, cutting release effort by 50%.
- Partnered with stakeholders to refine requirements, ensuring faster turnaround on feature delivery.

ABOUT ME

Senior iOS Engineer with **10+ years** of experience delivering scalable, high-performance apps across **FinTech**, **HealthTech**, and on-demand services. Proven ability to lead **architecture**, mentor teams, and ship production apps serving millions of users. Skilled in **Swift**, **SwiftUI**, **UIKit**, **Combine**, **Core Data**, **HealthKit**, **Kotlin Multiplatform (KMP)**, and **CI/CD** pipelines — with a track record of boosting app ratings, reducing crashes, and accelerating delivery cycles.

Experienced in **cross-platform development** with Kotlin Multiplatform and React Native, and in pairing hand-written engineering with **agentic AI coding tools** (Claude, Cursor, ChatGPT) to speed up delivery while holding the line on code quality. Also exposed to Django for backend services, adding broader technical versatility to mobile solutions.

SKILLS

Languages:

SWIFT, OBJECTIVE-C, KOTLIN, PYTHON (DJANGO), JAVASCRIPT (REACT NATIVE)

Frameworks & APIs:

SWIFTUI, UIKIT, COMBINE, CORE DATA, CORE NFC, HEALTHKIT, CORE LOCATION, STOREKIT, AVFOUNDATION, USERNOTIFICATIONS, COREGRAPHICS

Cross-Platform Development:

KOTLIN MULTIPLATFORM (KMP), SWIFTUI, REACT NATIVE

Architecture & Patterns:

MVVM, COORDINATOR, PROTOCOL-ORIENTED PROGRAMMING, MODULAR ARCHITECTURE, CLEAN ARCHITECTURE

SKILLS (CONT'D)

AI-Assisted & Agentic Development:

CLAUDE, CURSOR, CHATGPT, AI AGENTS, AGENT SKILLS & RULES, CONTEXT-WINDOW OPTIMIZATION, PROMPT ENGINEERING

Tools & DevOps:

XCODE, GITHUB ACTIONS (CI/CD), CI/CD PIPELINES & WORKFLOWS, FIREBASE, AMPLITUDE, FASTLANE

Databases:

CORE DATA, SQLITE, POSTGRESQL

Testing:

UNIT TESTING, UI TESTING, XCTEST, CUCUMBERISH

Collaboration:

AGILE/SCRUM, CROSS-FUNCTIONAL LEADERSHIP, TECHNICAL MENTORSHIP

WORK EXPERIENCE (CONT'D)

APPSGENII TECHNOLOGIES

Apr 2018 - Feb 2019

iOS Engineer

- Designed and developed native iOS apps, enhancing UI/UX consistency and reducing crash rates by 15%.
- Built Apple Developer account workflows (certificates, provisioning, uploads) to smoothen app release cycles.
- Supported backend integration and improved app stability through efficient debugging practices.

AXIS CYBER TECHNOLOGIES

Mar 2016 - Mar 2018

iOS App Developer

- Developed and maintained multiple client-facing iOS apps.
- Reduced bug turnaround time by 30% by introducing structured debugging and code review practices.
- Contributed to UI design following Apple's HIG, improving usability and customer satisfaction.

KEY PROJECTS

VIRGIN MOBILE

Tech: Kotlin Multiplatform (KMP), SwiftUI, Kotlin

Virgin Mobile is a wireless communications brand used by seven independent brand-licensees worldwide.

My role:

- Plan and develop new features while maintaining and enhancing existing functionality across the app.
- Design scalable KMP architecture for new features, structuring shared business logic (networking, data, and view-models) to maximize code reuse between iOS and Android.
- Build native UI in SwiftUI on iOS while integrating with KMP shared modules, ensuring consistent behavior and performance across platforms.
- Collaborate with Android engineers to define shared module contracts, reducing platform-specific divergence and duplicate effort.

CAREEM (CAREEMPAY)

Tech: Swift, SwiftUI, Combine, RxSwift, MVVM (Protocol-Oriented)

Careem is a leading multi-service platform in the Middle East, offering ride-hailing, food delivery, and digital payment solutions.

My role:

- Led development of Careem's wallet app as part of super app strategy. Integrated payment services, improving transaction success rates by 20%.
- Coordinated with backend and security teams to deliver a seamless, secure financial experience.

STC PAY (BAHRAIN)

Tech: Swift, SwiftUI, Combine, MVVM, Coordinator Pattern, ScreenTime API, HealthKit

stc pay is a secure and convenient digital wallet in Bahrain & Saudi Arabia, enabling seamless money transfers, payments, and financial services.

My role:

- Built and launched stc pay's iOS app from scratch, scaling to 200K+ active users within the first year.
- Architected secure transaction flows and achieved App Store rating 4.7★.

ACHIEVEMENTS

DELIVERED GUEST SESSIONS ON IOS DEVELOPMENT AT UET-KSK AND UST LAHORE.

RECOGNIZED FOR MENTORING JUNIOR ENGINEERS AND INTRODUCING SCALABLE ARCHITECTURE PRACTICES ACROSS TEAMS.

EARLY ADOPTER OF AGENTIC AI- ASSISTED DEVELOPMENT (CLAUDE, CURSOR, CHATGPT) TO ACCELERATE DELIVERY WHILE UPHOLDING CODE-QUALITY STANDARDS.

KEY PROJECTS (CONT'D)

STEPPIN

Tech: Swift, SwiftUI, Combine, MVVM

Steppin is a digital wellness app that turns physical activity into screen time. Users earn app usage minutes by walking, promoting healthier digital habits.

My role:

- Designed and developed fitness + screen-time app integrating HealthKit from scratch.
- Achieved 10K+ downloads in 3 months, increasing daily user retention by 25%.

FIXALERT

Tech: Swift, SwiftUI, Combine, MVVM, Coordinator Pattern

Fixalert is a facility and complaint management app used by operations teams. As Mobile Lead, managed the iOS development lifecycle, App Store releases, and API integrations.

My role:

- Developed complaint management app with offline support and push notifications.
- Enabled real-time issue reporting, reducing resolution times by 35% for operations teams.

ISLAM ACCESSIBLE

Tech: Swift, SwiftUI, Combine, MVVM, Coordinator Pattern

Islam Accessible is an educational Quran app offering contextual Surah insights, prophetic timelines, and miracles of the Quran to help users understand as they read.

My role:

- Designed and developed the Islam Accessible iOS app from scratch, delivering contextual Surah insights, prophetic timelines, and Quranic miracles for an enriched reading experience.
- Implemented an intuitive UI, offline content access, and smooth navigation to make learning accessible and engaging for all users.

ANYPLAY (AUDIOBOOKS & PODCASTS)

Tech: Swift, SwiftUI, Combine, MVVM, Coordinator Pattern

AnyPlay is a subscription-based audiobook and podcast platform that lets users stream and download audio content for offline listening, with background playback, personalized libraries, offline downloads, and curated recommendations.

My role:

- Designed and developed the AnyPlay iOS app from scratch.
- Implemented an eye-catching UI, offline content access, and smooth user experience.
